

than 80 percent of the land surface of the Earth at 30-meter resolution;

Whereas the NGA carries on the proud legacy of this project with the evolution to full 3-dimensional-elevation modeling;

Whereas the Maritime Safety Office of the NGA, which traces its lineage to the year 1830, collects and analyzes data for and publishes the Notices to Mariners to provide government, civilian, and international mariners with vital, up-to-date maritime safety information that helps ensure safe navigation all over the world;

Whereas the NGA also supports military and commercial vessels worldwide with navigational products and warning messages;

Whereas, in addition to legacy paper charts, NGA provides worldwide digital nautical charts that ensure safety of navigation to a broad base of users;

Whereas the Aeronautical Navigation Office of the NGA, which traces its lineage to the year 1943, produces timely, relevant, and accurate aeronautical GEOINT to support more than 13,000 Department of Defense airplanes and their crew members, allowing them to safely navigate around the world every day;

Whereas the NGA has converted from paper maps to downloadable digital maps and content, reducing the gear that pilots need to carry while also ensuring that the Department of Defense meets global airspace mandates for performance-based navigation;

Whereas the NGA continues to innovate, pursuing new methods of intelligence collection and analysis to inform, complement, and add to the support of warfighter and policymaker requirements by—

(1) embracing innovative cost-sharing and risk-sharing constructs with the commercial electro-optical satellite industry;

(2) engaging commercial technology providers, including small satellite companies and geospatial data analytics companies, that hold the promise of rapid technological innovation and potential significant future cost savings to the taxpayers of the United States;

(3) leveraging emerging technologies, such as artificial intelligence, automation, and augmentation to enable advanced computational and intelligence capabilities;

(4) discovering, assessing, and integrating new commercial geospatial data types and services that bring value to solving the complex intelligence problems of the United States and supporting disadvantaged and underserved users operating in austere environments; and

(5) investing in breakthrough technologies and capabilities that will strengthen strategic warning, mission forecasting, and military intelligence and improve the means of navigation for NGA customers;

Whereas the NGA maintains United States GEOINT supremacy and hold the adversaries of the United States at bay by giving primacy to the core missions of the United States, serves as the world's premier GEOINT force, and pursues a whole-of-enterprise approach focused on—

(1) recruiting and training the world-class workforce of the NGA to lead the GEOINT community;

(2) collaborating with both foreign and domestic partners on co-production of GEOINT;

(3) leading the GEOINT community through the implementation of governance, standards, and enterprise services; and

(4) supporting the national security interests of the United States by delivering to NGA customers persistent, accurate, secure, and timely GEOINT data, products, and services; and

Whereas, throughout the years, the mission and commitment of the NGA has remained the same: to show the way by—

(1) delivering trusted GEOINT for decision advantage;

(2) protecting the United States by reducing strategic surprises; and

(3) elevating the understanding of the United States of the world and space to anticipate potential threats: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the women and men of the National Geospatial-Intelligence Agency on the occasion of the 25th anniversary of the Agency;

(2) honors the professional women and men, past and present, of the National Geospatial-Intelligence Agency for their selfless service and dedication to the United States; and

(3) expresses gratitude to all the women and men of the National Geospatial-Intelligence Agency for their past and continued efforts to provide timely and accurate geospatial-intelligence support to deliver overwhelming advantage to warfighters, defense planners, and defense and national security policymakers in the defense and security of the United States.
